1. AMS web introduces a new role: NFC manager

1. AMS web introduces a new role: NFC manager

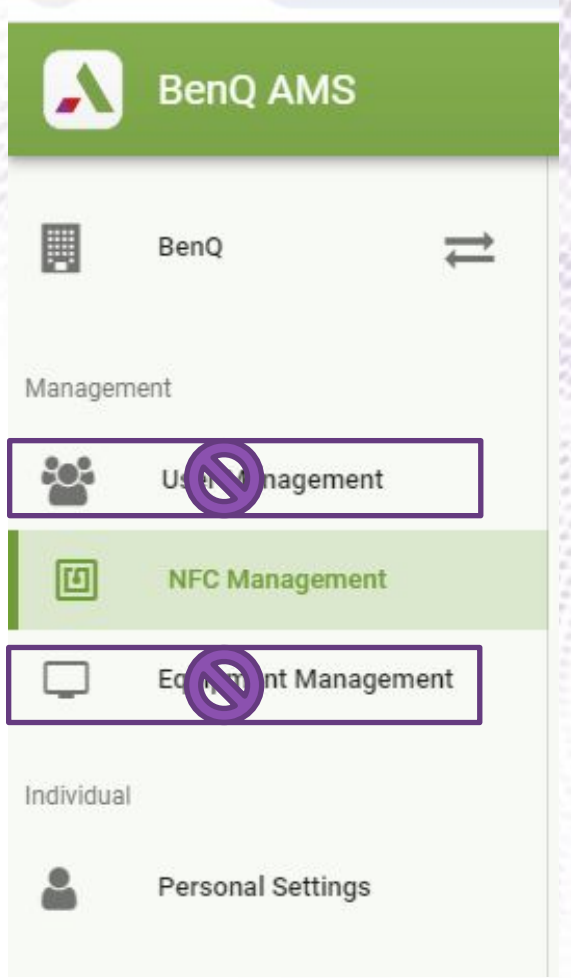
- The admin can designate the users as NFC managers in BenQ IAM. The NFC managers can assist with binding NFC cards.

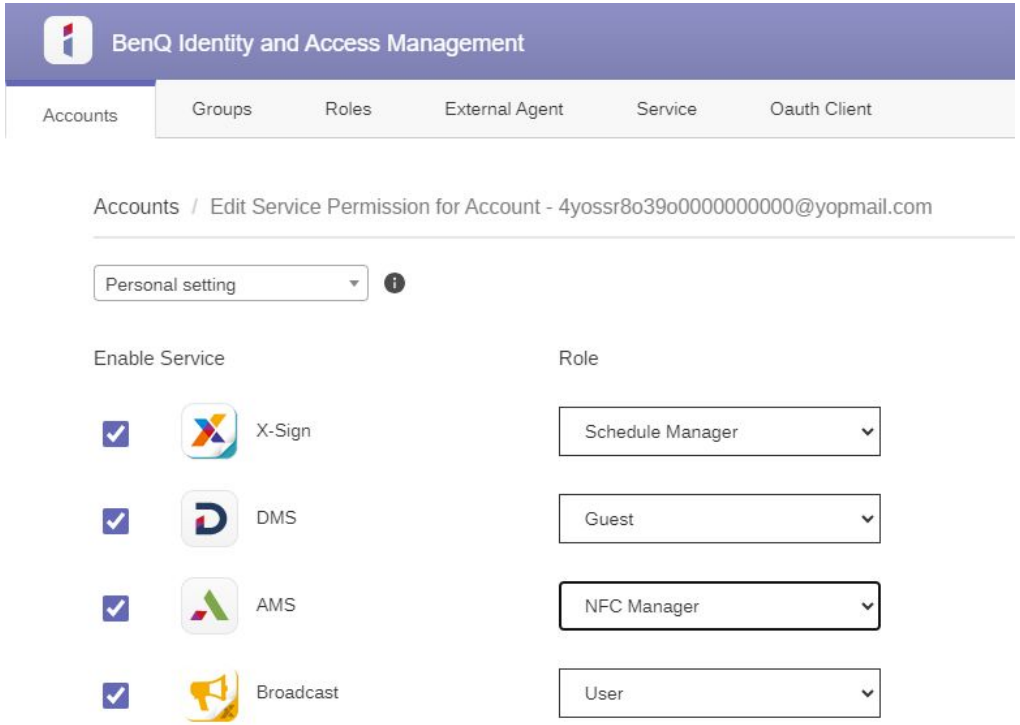
- The NFC managers can only manage NFC cards. They cannot manage users or equipment on AMS.

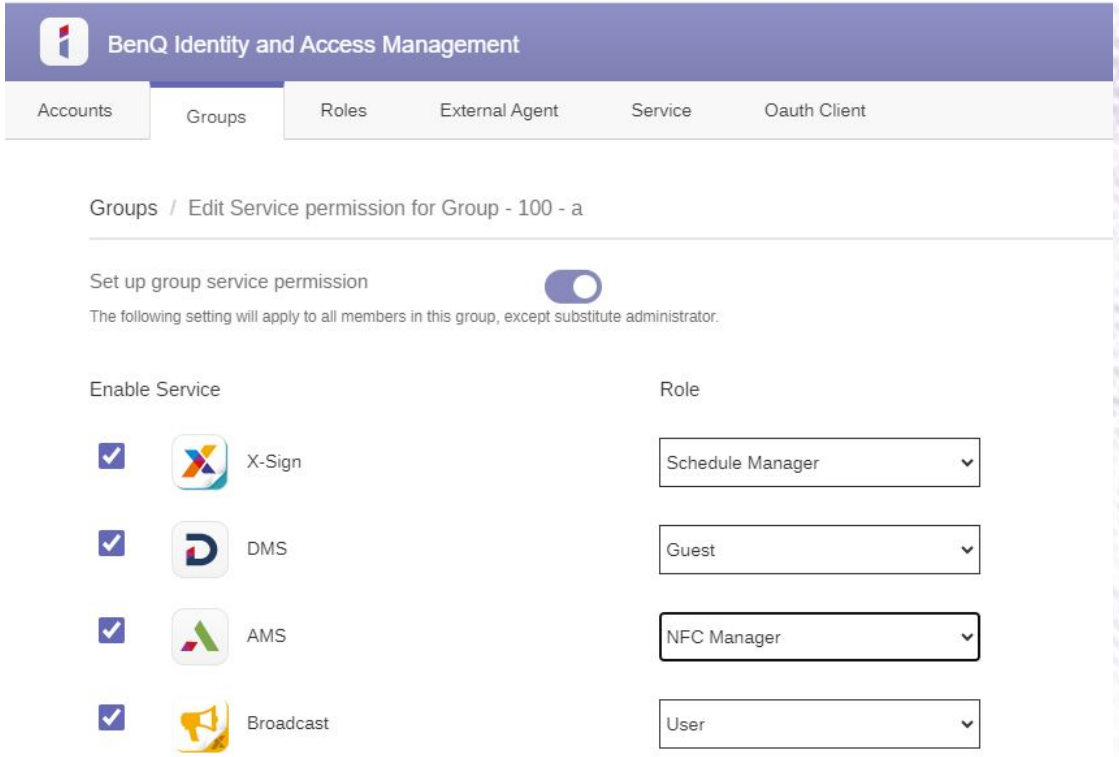


Confidential. © BenQ Corporation, all rights reserved.

How to designate NFC manager?

- Change the user permission on BenQ IAM by user or group.

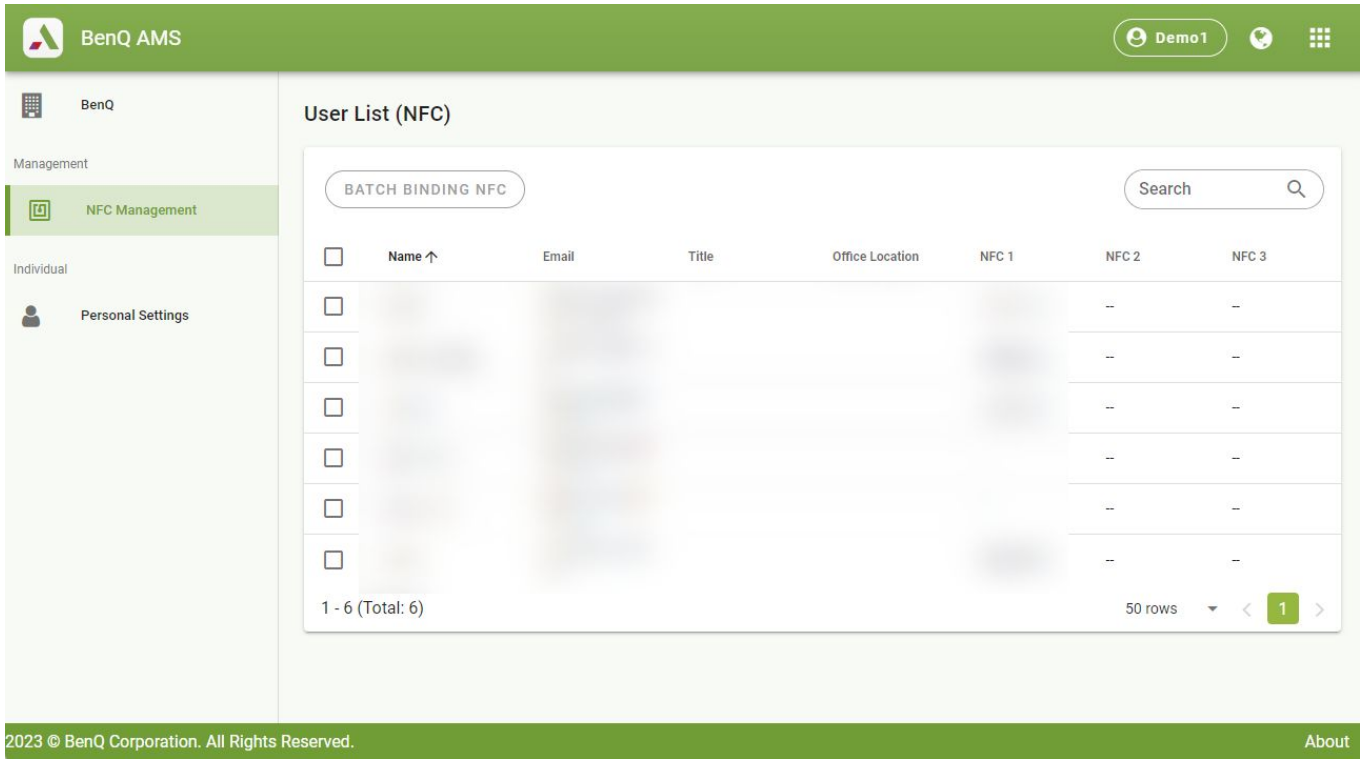




Confidential. © BenQ Corporation, all rights reserved.

Results

- The authorized user assigned as NFC manager can access BenQ AMS to manage NFC binding.



Confidential. © BenQ Corporation, all rights reserved.

2. AMS file supports searching function in EZWrite

2. AMS file supports searching function in EZWrite6

- In EZWrite6, users can search for the items they need when importing files.

Confidential. © BenQ Corporation, all rights reserved.
